SUMMARY

Full Stack Developer with expertise in React and Python. Experienced in FastAPI, PostgreSQL, MongoDB, Redis, and AI-based application development, using Antigravity IDE for fast and efficient development. Focused on building scalable, high-quality web solutions.

SKILLS

- Software Development & Frameworks: Python, FastApi, Express, node, LangChain, RAG.
- Cloud Technologies: Pinecone, Azure AI Services, n8n, Google Cloud Platform (GCP), Firebase Cloud Messaging, Git, Github.
- Data Science & Machine Learning: LLMs, Machine Learning, NLP, Deep Learning.
- AI-Powered Development Tools: Antigravity IDE, Gemini CLI, GitHub Copilot
- Key Skills: Analytical Skills, Problem-Solving, Predictive Analytics, Team Collaboration.

PROJECTS

Resto Pulse

- Built an AI-powered restaurant management system using React, FastAPI, PostgreSQL, and Redis on Google Cloud, with WhatsApp automation, FCM notifications, and Vertex AI integration.

Edu Stack

- Engineered a scalable backend for the Edu-Stack LMS leveraging Node.js, Express, and MongoDB to ensure efficiency, reliability, and seamless learning experiences.

AI Assisted Medical Chat Bot

- Built a Medical Chatbot using Python, FastAPI, LangChain, GPT, and Pinecone vector database, with CI/CD pipelines for automated deployment and updates.

WORK EXPERIENCE

RestoPulse

Software Engineer

Dec 2025 - Feb 2026

- Built an AI-powered restaurant management system using React, FastAPI, PostgreSQL, and Redis on Google Cloud with real-time notifications and automation features.

Wonder Creative Studio

Backend & AI developer

Jun 2025 - Nov 2025

- Built backend systems using Node.js, Express.js, FastAPI, and MongoDB, designing robust APIs for automation and real-time intelligence.

Labmentix

AI/ML Intern

Jan 2025 - Apr 2025

- Worked on core AI/ML projects, building strong hands-on experience using Python, FastAPI, and Django.

Revature

AI/ML Trainee

Jul 2024 - Dec 2024

- Developed and deployed real-time AI solutions using deep learning, Generative AI (RAG, LangChain), and Azure AI Services, with integrated NLP, image classification, and multi-language support.

EDUCATION

Vimal Jyothi Engineering College

B.Tech Computer Science - 7.22 CGPA

Jan 2020 - Jun 2024

CERTIFICATE

Azure AI Engineer Associate(AI-102)
